- MySQL
- Oracle

DevOps & Tools

- Git
- AWS
- Vercel
- Netlify

Others

- Figma
- C
- Python
- Linux OS

Education

M.Sc. Engineering in Institute of Information and Communication Technology

Apr 2023 - Present

Bangladesh University of Engineering and Technology (BUET)

B.Sc. Engineering in Computer Science and Engineering

Jan 2013 - Dec 2017

Jashore University of Science and Technology

Work Experience

Junior Assistant Manager (ICT), Jul 2021-Present
Dhaka Power Distribution Company

Developing scalable web and mobile applications using React, Next.js, Node.js, PHP, and React Native, while integrating APIs and enhancing UI/UX with ShadCN and Tailwind CSS.

Assistant Software Engineer, Feb 2018 - Jun 2021
Synchronous ICT

Developed dynamic web applications using React, Node.js, PHP, and WordPress, focusing on custom plugin and theme development, API integrations, and maintaining high coding standards.

Projects

Longdryv Getaway Web app [[Link](#)]

Developed the Longdryv Getaway web app using Next.js, integrating Agora for real-time communication, Firebase for messaging, AWS authentication for secure access, and Stripe for seamless payment processing.

Getsbo Livecall monitoring system [[Link](#)]

Built the Getsbo Live Call Monitoring System using Next.js with WebSocket for real-time call monitoring, implementing a role-based access system and Stripe for streamlined payment processing.

Personal portfollio website [[Link](#)]

Developed a personal portfolio website using Next.js and Tailwind CSS to showcase projects and professional expertise.

AI Assistant using chatgpt API [[Link](#)]

Developed an AI Assistant using Next.js, Tailwind CSS, and the ChatGPT API, providing dynamic and intelligent responses through a sleek and responsive interface.

My DPDC Mobile app [[Link](#)]

Developed the My DPDC mobile app, enabling users to view electricity bills, check ledgers, file complaints, and find nearby NOCS offices with a seamless and user-friendly interface. I used PHP for api implementation.

Attendance management system [[Link](#)]

An advanced Attendance Management System built with Next.js for the frontend, Node.js for the backend, and React Native for the mobile application. This system streamlines students attendance tracking, provides real-time insights, and offers seamless integration across web and mobile platforms.

Developed synopi website [[Link](#)]

At first i build with wordpress theme development. For this project i also build a FAQ advance plugin in wordpress.

After some time i moved it to node and pug.js. All content are handled throw a dashboard that was developed by react and backend developed by node and mariadb.

Language

English (Professional)

Bangla (Native)

Training

LICT TOP-UP IT Training on Advance Java

Jan 2017 - June 2017

The LICT TOP-UP IT Training on Advanced Java provided in-depth knowledge of Java programming, frameworks, and advanced concepts. It enhanced my skills in building robust, scalable, and efficient applications.

Thesis

A New Text Encryption scheme using DNA, Caesar Cipher and OTP
